INDEPENDENT AUDITOR'S REPORT

Board of Fire Commissioners
Fire District No. 4 of the Township of Old Bridge:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities of each major fund and the aggregate remaining fund information of the Fire District No. 4 of the Township of Old Bridge, County of Monmouth, State of New Jersey, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit standards prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion on Fiduciary Funds

As more fully described in Note 2 T to the financial statements, the District could not provide a formal LOSAP plan document to determine eligibility of participants. The effect of this departure on the financial statements was not available upon issuance of this report.

Opinions

In our opinion, except for the effects of the matter described in the “Basis for Qualified Opinion on Fiduciary Funds” paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of each major fund and the aggregate remaining fund information of the Fire District No. 4 of the Township of Old Bridge, County of Monmouth, State of New Jersey, as of December 31, 2015, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and general fund, and the aggregate remaining fund information of the Fire District No. 4 of the Township of Old Bridge, as of December 31, 2015, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Adoption of New Accounting Pronouncement

As discussed in Note 2S to the financial statements, during the year ended December 31, 2015, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No.27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. Our opinion is not modified with respect to these matters.

Prior Period Adjustment

As described in Note 11, Fire District No. 4 of the Township of Old Bridge budgetary records as of December 31, 2014 were not recorded in accordance with N.J.A.C. 5:31-7-1. The District corrected this with an adjustment to the prior year’s general fund fund balance in the amount of (\$223,606), an adjustment to the prior year’s capital projects fund balance in the amount of \$223,606 and an adjustment to the net assets in the fiduciary fund in the amount of \$92,473. It was also noted that the District governmental activities net position was not in accordance with Generally Accepted Accounting Principles, capital assets were understated by \$795,616 and debt was understated by \$311,740, this was corrected with a prior period adjustment in the amount of \$483,876. Our opinion has not been modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion, analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability –PFRS, schedule of District contributions – PFRS and notes to the required supplementary information, as listed on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Fire District No. 4 of the Township of Old Bridge's basic financial statements. The long-term debt schedule of serial bonds payable as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements.

The long-term debt schedule of obligations under capital leases is the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the long-term debt schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 01, 2016 on our consideration of the Fire District No. 4 of the Township of Old Bridge's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Fire District No. 4 of the Township of Old Bridge's internal control over financial reporting and compliance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of Fire Commissioners
Fire District No. 4 of the Township of Old Bridge:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fire District No. 4 of the Township of Old Bridge, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise Fire District No. 4 of the Township of Old Bridge's basic financial statements, and have issued our report thereon dated November 01, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Fire District No. 4 of the Township of Old Bridge's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fire District No. 4 of the Township of Old Bridge's internal control. Accordingly, we do not express an opinion on the effectiveness of Fire District No. 4 of the Township of Old Bridge's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying comments and recommendation section as items 2015-001, 2015-002, 2015-003, 2015-004, 2015-005, 2015-006, 2015-007 and 2015-008 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards or audit requirements as prescribed by the Local Finance Board and by the Division of Local Government Services, Department of Community Affairs, State of New Jersey which is described in the accompanying comments and recommendations section as items 2015-001, 2015-002, 2015-003, 2015-004, 2015-005, 2015-006, 2015-007 and 2015-008.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. Old Bridge Township Fire District No. 4's basic financial statements are comprised of three components: district-wide financial statements; fund financial statements; and notes to the basic financial statements.

Reporting on the District as a Whole

Our analysis of the District as a whole begins on page 7. District-wide financial statements are provided to give the reader a broad overview of the District's financial position and its financial activity for the year. It is presented in a format similar to the private sector to give the reader a familiar point of reference.

The Statement of Net Assets presents information on all the assets and liabilities of Old Bridge Township Fire District No. 4. The difference between the assets and liabilities is reported as the District's net assets. Significant increases or decreases in the District's net assets can be an indication of the financial health of the District.

The Statement of Activities presents financial information about activities that result in the District's net assets increasing or decreasing during the year. Financial activities are recorded when the transactions occur rather than when the cash is received or paid out. As a result, there could be activities that result in cash flow in a future period.

The district-wide financial statements report on the financial data by function. Old Bridge Township Fire District No. 4 has two basic functions: activities that are supported by property taxes; and activities supported by other governmental activities. Old Bridge Township Fire District No. 4 provides firefighting services to the citizens of Old Bridge Township.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, Old Bridge Township Fire District No. 4 uses fund accounting to document compliance with finance-related legal matters. Old Bridge Township Fire District No. 4 has two types of fund groups, governmental funds and fiduciary funds.

Governmental Funds

Old Bridge Township Fire District No. 4's activities are reported in governmental funds. These funds record the flow of cash in and out of the District during the period and the balances remaining at year end for future periods. The modified accrual basis of accounting is utilized for reporting purposes. This method of accounting measures cash and all other financial assets that can be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services that it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's services.

Old Bridge Township Fire District No. 4 maintains two separate governmental funds, the general fund and the capital fund. Information is presented in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and the capital fund.

The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is described in a reconciliation at the bottom of the fund financial statements.

As required by N.J.S.A. 40A:14:78-3, Old Bridge Township Fire District No. 4 adopts an annual budget which is voted on by the legal voters of the district on the third Saturday in

February. Budgetary comparison schedules have been prepared to document compliance with budgetary requirements.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the District on behalf of outside third parties, or other funds within the District. There are two fiduciary funds in the District. One fiduciary fund is the Length of Service Award Program (LOSAP). LOSAP is an annuity program for the volunteer firefighters. The fund is used to hold the monies in reserve until the actuary determines the amount to be invested for the each volunteer (see Note 9). The other fiduciary fund is the payroll fund. This fund is used to pay salaries, payroll taxes and other payroll deductions.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements are an integral part of the financial statements.

DISTRICT-WIDE FINANCIAL ANALYSIS

Old Bridge Township Fire District No. 4’s net assets are a useful indicator of the District’s financial condition. At the end of 2015 the District’s assets exceeded the liabilities by approximately \$54,300. The largest portion of Old Bridge Township Fire District No. 4’s net assets (72.6%) is its investment in capital assets. The District uses these assets to provide fire-fighting services to the community; consequently, these assets are not available for future spending. Old Bridge Township Fire District No. 4’s investment in capital assets is reported net of any related debt.

Property tax revenue constituted 85% of the total governmental activities revenues received by Old Bridge Township Fire District No. 4 in 2015. In 2014 the property tax revenue constituted 87% of total revenues.

The Cost of Operations & Maintenance was 89% and 69% of the District's total expenses in 2015 and 2014 respectively. Administration expenses equaled 10% and 31% of the total expenses in 2015 and 2014.

FINANCIAL ANALYSIS OF THE GOVERNMENT FUNDS

Old Bridge Township Fire District No. 4 uses fund accounting to document compliance with finance-related legal requirements.

Government Fund

The primary objective of the District's governmental funds is to report on cash flows in and out during the period and the ending balances of the spendable resources.

This information is useful to evaluate the performance of the District and to assess its future needs and available resources.

As of December 31, 2015, the combined balance of the governmental cash funds of Old Bridge Township Fire District No. 4 was approximately \$162,600. This balance is approximately \$47,100 higher than last year's combined governmental funds balance. The increase is due primarily to a more accurate reporting by the new auditor. The funds realized a combined excess of expenditures over revenues for the year of approximately \$46,900.

The combined balance of the governmental funds of Old Bridge Township Fire District No. 4 was a surplus of approximately \$55,500. An amount of \$400,000 is designated for future capital purchases. The Board has inappropriately used Capital Funds for operating costs and has a General Fund deficit of approximately \$344,500.

During 2015 the general fund balance deficit of Old Bridge Township Fire District No. 4 increased by approximately \$370,500. The primary reasons for this increase are as follows:

- The Board operated at a deficit of approximately \$146,900.
- The Board had a prior period adjustment of approximately \$223,600.

At the end of 2015, the District had a capital projects fund balance of approximately \$400,000. This was an increase of \$100,000 from the previous year. The major changes in this fund balance were:

- The budgeted appropriation of \$100,000 for future capital purchases.

General Fund Budgetary Highlights

The original 2015 Budget was balanced with the utilization of \$10,348 of surplus. The Board realized a budgetary deficiency of approximately \$146,900 in 2015 which was offset by the utilization of surplus. The primary cause of the deficiency was the under estimation of revenues.

The District had total revenues in excess of expenditures of approximately \$18,300 in 2014, and in 2015 they experienced a deficiency of approximately \$46,900. In 2016 the Board expects another surplus.

Administrative expenses were approximately \$25,800 higher than projected in 2015. Operating expenses were approximately \$161,100 higher than projected in 2015.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of December 31, 2015 Old Bridge Township Fire District No. 4 had invested in capital assets for government activities approximately \$736,300 (net of accumulated depreciation). Capital assets consist of fire apparatus, fire equipment, and office equipment. They purchased approximately \$18,700 of capital assets in 2015.

Additional information on Old Bridge Township Fire District No. 4's capital assets can be found in Note 5 in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEARS BUDGET

In 2015, Old Bridge Township Fire District No. 4 was unable to cover all its appropriations through the fire tax levy and other revenues. The Board had to utilize capital funds to pay for overspending in operations.

Old Bridge Township Fire District No. 4 adopted their 2016 budget on January 11, 2016. The voters subsequently voted to approve the adopted budget at the February election. The 2016 budget reflects an increase in the tax levy of approximately \$16,000. The Board is utilizing \$290,655 of Capital Funds to balance the budget.

REQUESTS FOR INFORMATION

Notes to Financial Statements
For the year ended December 31, 2015

NOTE 1: GENERAL INFORMATION

A. Description of Reporting Entity

Fire District No. 4 of the Township of Old Bridge is a political subdivision of the Township of Old Bridge, County of Middlesex, State of New Jersey. A board of five commissioners oversees all of the operations of the Fire District. The length of each commissioner's term is three years with the annual election held the third Saturday of every February.

Fire Districts are governed by the *N.J.S.A. 40A: 14-70* et al. and are taxing authorities charged with the responsibility of providing the resources necessary to provide fire fighting services to the residents within its territorial location.

Fire District No. 4 of the Township of Old Bridge is not a component unit of any other financial reporting entity nor does the Fire District have any component units to be presented in accordance with Governmental Accounting Standards Board Statement No. 14.

B. District Officials

The District is governed by a board of five commissioners. The following were in office at December 31, 2015:

<u>Officials</u>	<u>Term Expires</u> <u>March</u>
Mike Donahue	2017
Anthony Guarnera	2018
Ann Peel	2016
Drew Vagts	2017
John Watkins	2016

C. Accounting Records

The official accounting records of the Fire District No. 4 of the Township of Old Bridge are maintained in the office of the District.

D. Minutes

Minutes were recorded for meetings and contained approvals for disbursements.

E. Component Units

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the *GASB Codification of Governmental Accounting and Financial Reporting Standards*, is whether:

- ◆ the organization is legally separate (can sue or be sued in their own name)
- ◆ the District holds the corporate powers of the organization

FIRE DISTRICT NO. 4 OF THE TOWNSHIP OF OLD BRIDGE
Notes to Financial Statements (continued)
For the year ended December 31, 2015

NOTE 1: GENERAL INFORMATION (continued)

E. Component Units (continued)

- ◆ the District appoints a voting majority of the organization's board
- ◆ the District is able to impose its will on the organization
- ◆ the organization has the potential to impose a financial benefit/burden on the District
- ◆ there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The financial statements of the Fire District conform to generally accepted accounting principles (GAAP) applicable to governmental funds of state and local governments in accordance with the provisions of N.J.A.C. 5:31-7-1. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

The basic financial statements report using the economic resources measurement focus and the accrual basis of accounting generally includes the reclassification or elimination of internal activity (between or within funds). Fiduciary fund financial statements also report using the same focus. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. The tax revenues are recognized in the year for which they are levied (see Note 20) while grants are recognized when grantor eligibility requirements are met.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon thereafter, within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred.

B. Fund Accounting

The accounts of the district are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. Each fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn is divided into separate "fund types."

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Fund Accounting (continued)

Governmental Funds:

General Fund

The General Fund is the general operating fund of the Fire District and is used to account for the inflows and outflows of financial resources. The acquisition of certain capital assets, such as fire fighting apparatus and equipment, is accounted for in the General Fund when it is responsible for the financing of such expenditures.

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities, such as firehouses and fire fighting apparatus. Generally, the financial resources of the Capital Projects Fund are derived from the issuance of debt or by the reservation of fund balance, which must be authorized by the voters as a separate question of the ballot either during the annual election or at a special election.

Debt Service Fund

The Debt Service Fund is used to account for resources that will be used to service general long-term debt.

C. District Wide and Fund Financial Statements

District Wide Financial Statements

The district-wide financial statements (A-1 and A-2) include the statement of net position and the statement of activities. These statements report financial information of the District as a whole excluding the fiduciary activities. All inter-fund activity, excluding the fiduciary funds, has been eliminated in the statement of activities. Individual funds are not displayed but the statements distinguish governmental activities as generally supported through taxes and user fees.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or component unit are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment, or component unit. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function, segment or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment, or component unit. Taxes and other items not properly included among program revenues are reported instead as general revenues. The District does not allocate general government (indirect) expenses to other functions.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. District Wide and Fund Financial Statements (continued)

Net position is restricted when constraints placed on it is either externally imposed or imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net position. When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

Fund Financial Statements

The fund financial statements provide detail of the governmental and fiduciary funds.

D. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and private purpose trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net position.

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, private purpose trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State equalization monies are recognized as revenue during the period in which they are appropriated. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

In its accounting and financial reporting, the Fire District No. 4 of the Township of Old Bridge follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB).

E. Budgets and Budgetary Accounting

The Fire District must adopt an annual budget in accordance with N.J.S.A. 40A: 14-78.1 et al.

The fire commissioners must introduce and approve the annual budget no later than sixty days prior to the annual election. At introduction, the commissioners shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper having substantial circulation in the Fire District. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the fire commissioners may, by majority vote, adopt the budget.

Notes to Financial Statements (continued)
For the year ended December 31, 2015

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Budgets and Budgetary Accounting (continued)

Amendments may be made to the Fire District budget in accordance with N.J.S.A 40A: 14-78.3.

Subsequent to the adoption of the Fire District budget, the amount of money to be raised by taxation in support of the Fire District budget must appear on the ballot for the annual election for approval of the legal voters.

Fire Districts have a prescribed budgetary basis to demonstrate legal compliance. However, budgets are adopted on principally the same basis of accounting utilized for the preparation of the Fire Districts general-purpose financial statements.

F. Encumbrances

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances, other than in the special revenue fund, are reported as reservations of fund balances at year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Encumbered appropriations carry over into the next fiscal year. An entry will be made at the beginning of the next year to increase the appropriation reflected in the adopted budget by the outstanding encumbrance amounts as of the current year-end. Encumbrances totaled \$0 for the year ended December 31, 2015.

G. Cash and Cash Equivalents

Cash and cash equivalents include petty cash, change funds and cash in banks. All certificates of deposit are recorded as cash regardless of the date of maturity. Fire Districts are required by N.J.S.A. 40A: 5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey organized under the laws of the United States or of the State of New Jersey or with the New Jersey Cash Management Fund. N.J.S.A. 40A: 5-15.1 provides a list of investments that may be purchased by Fire Districts.

N.J.S.A. 17:9-42 requires New Jersey governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the provision of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in the State of New Jersey.

Public funds are defined as the funds of any governmental unit. Public depositories include savings and loan institutions, banks (both State and National banks) and savings banks the deposits of which they are federally insured. All public depositories must pledge collateral, having a market value of five percent of its average daily balance of collected public funds, to secure the deposits of governmental units. If public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

For the year ended December 31, 2015

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

H. Prepaid Expenses

Prepaid expenses that benefit future periods are recorded as an expenditure during the year of purchase.

I. Debt Limitation

N.J.S.A.40A:14-84 governs procedures for the issuance of any debt related to such purchases. In summary, Fire Districts may purchase fire fighting apparatus, equipment, land and buildings to house such property in an amount not exceeding 5 mills on the dollar of the last assessed valuation of property within the district upon the approval of the legal voters. Debt may be issued up to \$60,000 or 2 percent of the assessed valuation of property, whichever is larger.

J. Capital Assets

Capital assets, which include land, building, improvements, and equipment, are reported in the Government-Wide Financial Statements. Capital assets are recorded at historical cost or estimated historical cost if actual cost is not available. Donated assets are valued at their estimated fair value on the date donated. The District has set capitalization thresholds for reporting capital assets, of \$2,000.

Depreciation is recorded on the straight-line method over the useful lives of the assets as follows:

Building and Improvements	10 to 25 Years
Equipment	5 to 10 Years
Trucks and vehicles	5 to 25 Years

K. Inventory, Materials and Supplies

The inventory on hand at any time is small. Accordingly, purchases are charged directly to capital assets or to maintenance costs, as applicable.

L. Interfund Receivable/Payable

Interfund receivables and payables that arise from transactions between funds that are due within one year are recorded by all funds affected by such transactions in the periods in which the transaction is executed

M. Compensated Absences

Fire District employees are entitled to vacation and sick leave. Unused vacation and sick leave may be accumulated. Benefits paid in any future year will be calculated according to formulas outlined in the Fire District's agreement with the employees and included in the current year's budget.

The liability for vested compensated absences is recorded as a non-current liability in the governmental activities fund. The current portion of the compensated absence balance is not considered material to the applicable fund's total liabilities, and is therefore not shown separately from the long-term liability balance of compensated absences.

Notes to Financial Statements (continued)
For the year ended December 31, 2015

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

N. Revenues and Expenditures

Revenues are recorded when they are determined to be both available and measurable. Generally, fees and other non-tax revenues are recognized when qualifying expenditures are incurred.

Expenditures are recorded when the related liability is incurred, if measurable, except for un-matured interest on general long-term debt, which is recognized when due.

O. Fire District Taxes

Upon proper certification to the assessor of the municipality in which the Fire District is located, the assessor shall assess the amount of taxes to be realized in support of the Fire District's budget in the same manner as all other municipal taxes. The collector or treasurer of the municipality shall then pay over to the treasurer or custodian of funds of the Fire District the taxes assessed in accordance with the following schedule: on or before April 1, an amount equaling 21.25% of all monies assessed, on or before July 1, an amount equaling 22.5% of all monies assessed, on or before October 1, an amount equaling 25% of all monies assessed and on or before December 31 an amount equal to the difference between the total of all monies assessed and the total of monies previously paid over.

P. Fund Equity

In accordance with Government Accounting Standards Board 54, Fund Balance Reporting and Governmental Fund Type Definitions, the Fire District No. 4 of the Township of Old Bridge classifies governmental fund balances as follows:

- Non-spendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because legal or contractual constraints.
- Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by external parties, constitutional provision or enabling legislation.
- Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end.
- Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the Business Administrator.
- Unassigned – includes balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

P. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Q. Net Position

Net position, represents the difference between summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified in the following three components:

- Net Investment in Capital Assets – This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for acquisition, construction, or improvement of those assets.
- Restricted – Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- Unrestricted – Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

S. Impact of Recently Issued Accounting Principles

Recently Issued and Adopted Accounting Pronouncements

In March 2012, the GASB issued Statement 66, *Technical Corrections—2012*—an amendment of GASB Statements No. 10 and No. 62. GASB 66 improves accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This Statement is effective for periods beginning after December 15, 2012 although the District elected to early implement Statement 62 in fiscal year 2012. The adoption of GASB 66 does not have any impact on the District's financial statements.

In March 2012, the GASB issued Statement 65, *Items Previously Reported as Assets and Liabilities*. GASB 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities. This Statement is effective for periods beginning after December 15, 2012. The adoption of GASB 65 does not have any impact on the District's financial statements.

S. Impact of Recently Issues Accounting Principles (continued)

In June 2012, the GASB issued Statement 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement 27*. GASB 68 improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This Statement is effective for fiscal years beginning after June 15, 2014. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

T. LOSAP

The Fire District's Length of Service Awards Program (LOSAP) provides tax deferred income benefits to active volunteer firefighters. The plan is intended to comply with Section 457(e)(11)(A)(ii) of the Internal Service Code of 1986, as amended.

The District has a contractual obligation to pay the LOSAP benefits to eligible members. Assets that are designated to pay the LOSAP benefits are available to the unsecured creditors of the District. As such, the assets and liabilities of the LOSAP are included in the financial statements of the District as an agency fund. For the year ended December 31, 2015 the District was unable to locate a formal LOSAP plan document for its volunteers to support participation points.

U. Subsequent Events

Fire District No. 4 of the Township of Old Bridge has evaluated subsequent events occurring after December 31, 2015 through the date of November 01, 2016, which is the date the financial statements were available to be issued.

NOTE 3: CASH

The Fire District is governed by the deposit and investment limitations of New Jersey state law. The deposits and investments held at December 31, 2015, and reported at fair value are as follows:

Deposits:

Demand Deposits	\$ <u>162,582</u>
Total Deposits	\$ <u>162,582</u>

Reconciliation to Governmental Fund Statements:

Governmental Funds	\$ <u>162,582</u>

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned. The District does not have a deposit policy for custodial credit risk. As of December 31, 2015, the District's bank balance of \$167,684 was insured or collateralized as follows:

Insured	\$ 167,684
Total	<u>\$ 167,684</u>

NOTE 4: INVESTMENTS

A. Custodial Credit Risk

For an investment, custodial credit risk is a risk that, in the event of the failure of the counterparty, the Fire District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Fire District, and are held by either the counterparty or the counterparty's trust department or agent but not in the Fire District's name. All of the District's investments are held in the name of the District and are collateralized by GUDPA.

B. Investment Interest Rate Risk

Interest rate risk is the risk that changes in interest rates that will adversely affect the fair value of an investment. The Fire District has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Maturities of investments held at December 31, 2015, are provided in the below schedule.

C. Investment Credit Risk

The Fire District has no investment policy that limits its investment choices other than the limitation of state law as follows:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- Government money market mutual funds;
- Any obligation that a federal agency or federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligations bear a fixed rate of interest not dependent on any index or other external factor;
- Bonds or other obligations of the Fire District or bonds or other obligations of the local unit or units within which the Fire District is located;
- Bonds or other obligations, having a maturity date of not more than 397 days from the date of purchase, approved by the Division of Investment in the Department of Treasury for investment by the Fire District;

N.J.S.A. 40A: 14-84 governs the procedures for the acquisition of property and equipment for the Fire Districts, and the *N.J.S.A. 40A: 14-85-87* governs procedures for the issuance of any debt related to such purchases. In summary, Fire Districts may purchase fire fighting apparatus, equipment, land, and buildings to house such property in an amount not exceeding five mills on the dollar of the least assessed valuation of property within the district upon the approval of the legal voters. Debt may be issued up to \$60,000 or two percent of the assessed valuation of property, whichever is larger.

NOTE 7: PENSION

A. Police and Firemen's Retirement System (PFRS)

Plan Description – The State of New Jersey, Police and Firemen's Retirement System (PFRS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PFRS, please refer to the Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrpts.shtml.

The vesting and benefit provisions are set by N.J.S.A. 43:16A. PFRS provides retirement as well as death and disability benefits. All benefits vest after ten years of service, except disability benefits which vest after four years of service.

The following represents the membership tiers for PFRS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to May 22, 2010.
2	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
3	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service, as defined, up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1 % for each year if creditable service over 25 years but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

NOTE 7: PENSION (continued)

A. Police and Firemen's Retirement System (PFRS) (continued)

Basis of Presentation - The schedules of employer and non-employer allocations and the schedules of pension amounts by employer and non-employer (collectively, the Schedules) present amounts that are considered elements of the financial statements of PFRS, its participating employers or the State as a non-employer entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of PFRS, the participating employers, or the State. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of PFRS to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Contributions - The contribution policy for PFRS is set by *N.J.S.A. 43:16A* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. For fiscal year 2015, the State contributed an amount less than the actuarially determined amount. The Local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PFRS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Three-Year Trend Information for PFRS

12/31/2013	\$ 25,742	100%	\$ 438,740

Special Funding Situation - Under *N.J.S.A. 43:16A-15*, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the state is as follows: Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The amounts contributed on behalf of the local participating employers under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the

local participating employers do not contribute under this legislation directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers related to this legislation. However, the notes to the financial statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the collective net pension liability that is associated with the local participating employer.

Components of Net Pension Liability - At December 31, 2015, the District reported a liability of \$544,766 for its proportionate share of the PFRS net pension liability. The net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2014, to the measurement date of June 30, 2015. The District's proportion of the net pension liability was based on the District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2015. The District's proportion measured as of December 31, 2015, was .00327%, which was a decrease of .00001% from its proportion measured as of December 31, 2014.

Additionally, the State's proportionate share of the net pension liability attributable to the District is \$47,774 as of December 31, 2015. The net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2014, to the measurement date of June 30, 2015. The State's proportion of the net pension liability associated with the Borough was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. The State's proportion measured as of June 30, 2015 .00327%, which was a decrease of .00001% from its proportion measured as of June 30, 2014, which is the same proportion as the District's.

Actuarial Assumptions - The collective total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014 which was rolled forward to June 30, 2015. The actuarial valuations used the following actuarial assumptions:

	<u>PFRS</u>
Measurement date	June 30, 2015
Actuarial valuation date	July 1, 2014
Interest rate	7.90%
Salary scale	2012-2021 - 2.60-9.48% Based on Age Thereafter - 3.60-10.48% Based on Age
Inflation rate	3.04%

Mortality rates were based on the RP-2000 Combined Healthy Mortality Tables projected one year using Projection Scale AA and one year using Projection Scale BB for male service retirements with adjustments for mortality improvements from the base year based on Projection Scale BB. Mortality rates were based on the RP-2000 Combined Healthy Mortality Tables projected fourteen years using Projection Scale BB for female service retirements and beneficiaries with adjustments for mortality improvements from the base year of 2014 based on Projection BB.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2013.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PFRS's target asset allocation as of June 30, 2015 are summarized in the following table:

Discount Rate - The discount rate used to measure the total pension liability was 5.39% as of June 30, 2015. This single blended discount rate was based on long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% as of June 30, 2015, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipals bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current member contribution rates and that contributions from employers will be made on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2045. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2045, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate as disclosed above, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.79%) or 1-percentage-point higher (6.79%) than the current rate:

NOTE 9: LENGTH OF SERVICE AWARDS PROGRAM

The District has a contractual agreement with volunteer firefighters to reward them based on length of continued service. This is not a pension plan as described under the Employee Retirement Security Act, and therefore is not guaranteed to the volunteers until they reach the age 65.

The contribution for the year ended December 31, 2014 and paid in the fiscal year ended December 31, 2015 is \$36,000.

NOTE 8: INTERFUND RECEIVABLE/PAYABLE

As of December 31, 2015, the following interfund balances remained on the balance sheet:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General	\$ -	\$ 400,000
Capital projects	<u>400,000</u>	<u>-</u>
Total	<u>\$ 400,000</u>	<u>\$ 400,000</u>

The purpose of these interfunds are for short-term borrowings.

Interfund receivables are recorded as other receivables. Interfund payables are recorded as other payables.

NOTE 9: FUNDING

The activities of the Board of Commissioners are primarily funded by the striking of the fire tax on the property owners of the Fire District, as provided for by the state statute. For the year ended December 31, 2015, the fire tax rate on the Fire District was approximately \$.309 per \$100 of assessed valuation.

The District also participates in the Supplemental Fire Services Programs and received a basic entitlement grant of approximately \$2,507. As a condition of the grant, the Board must match the grant by 10%.

NOTE 10: FUND BALANCE

General Fund – Of the (\$344,516) General Fund fund balance at December 31, 2015, (\$344,516) is unassigned.

Capital Projects Fund – Of the \$400,000 Capital Projects Fund fund balance at December 31, 2015, \$400,000 is restricted for capital.

The District uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available, unless prohibited by law or regulation.

NOTE 11: PRIOR PERIOD ADJUSTMENT/RESTATEMENT

Net position as of January 1, 2015, has been restated as follows for the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

Notes to Financial Statements (continued)
For the year ended December 31, 2015

NOTE 11: PRIOR PERIOD ADJUSTMENT/RESTATEMENT (continued)

During 2015 it was also noted that the Districts capital assets were understated by \$795,616, debt was understated by \$311,740. This was corrected by an adjustment to prior year's net assets.

Net Position as previously reported at December 31, 2014	\$	102,357
Prior period adjustment -		
Implementation of GASB 68:		
Net Pension Liability (measurement date as of June 30, 2014)		(412,484)
Deferred Outflows (measurement date as of June 30, 2014)		15,486
Deferred Inflows (measurement date as of June 30, 2014)		(44,447)
Capital Assets		795,616
Capital Leases Payable		(311,740)
Total prior period adjustment		<u>42,431</u>
Net Position as restated, January 1, 2015	\$	<u>144,788</u>

The capital projects fund fund balance was understated by \$223,606, the District corrected this with an adjustment to the prior year's general fund fund balance in the amount of \$223,606.

The fiduciary fund had understated assets of the Length of Service Award Program. This resulted in an adjustment to net assets of \$92,473.

NOTE 12: DEFICIT UNRESTRICTED NET POSITION

Unrestricted Net Position – As reflected on Exhibit A-1, Statement of Net position, a deficit in unrestricted net position of \$(397,550) existed as of December 31, 2015 for governmental activities. The primary causes of this deficit is the District recording of the long-term liability their proportionate share of the net pension liability. In accordance with full accrual accounting, which is the basis of accounting for Exhibit A-1, Statement of Net Position, such liabilities are required to be recorded in the period in which they are incurred. However, in accordance with the rules and regulations that govern the District in the formulation of their annual budget (see Note 2), pension liabilities that relate to future services, or that are contingent on a specific event outside the control of the District and its employees, are funded in the period in which such services are rendered or in which such events take place. Therefore, this deficit in unrestricted net position for governmental activities does not indicate that the District is facing financial difficulties.

Police and Firemen's Retirement System (PFRS)

Basis of Presentation - The amounts presented in the Schedules were prepared in accordance with U.S. generally accepted accounting principles. The numbers were derived in a report provided by KPMG dated April 19, 2016. The full report is available by the State of New Jersey, Division of Pension and Benefits. Such preparation requires management of the Police and Firemen's Retirement System (PFRS) to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Changes of benefit terms - The vesting and benefit provisions are set by N.J.S.A. 43:16A. PFRS provides retirement as well as death and disability benefits. All benefits vest after ten years of service, except disability benefits which vest after four years of service.

Changes of assumptions - Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality with adjustments for mortality improvements from the base year of 2011 based on Projection Scale AA.

Board of Fire Commissioners
Fire District No. 4 of the Township of Old Bridge
Old Bridge, New Jersey 08859

We have audited the basic financial statements of the Fire District No. 4 of the Township of Old Bridge, County of Middlesex, State of New Jersey for the year ended December 31, 2015. In accordance with requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the following are the *General Comments* and *Recommendations* for the year then ended.

GENERAL COMMENTS AND RECOMMENDATIONS

Contracts and Agreements Required to be Advertised by (N.J.S.A.40A:11-4)

N.J.S.A.40A:11-4 - Every contract or agreement, for the performance of any work or furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only by the governing body of the contracting unit after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other Law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding in the aggregate \$36,000 from January 1, 2015 through June 30, 2015 and \$40,000 from July 1, 2015 through December 31, 2015, except by contract or agreement.

It is pointed out that the Members of the District have the responsibility of determining whether the expenditures in any category will exceed the statutory minimum within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the solicitor's opinion should be sought before a commitment is made.

Review of the minutes and financial transactions did not identify any bids requested by public advertising.

The minutes indicate that resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services," per *N.J.S.A.40A:11-5*.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed. The results of our examination did not disclose any discrepancies.

Contracts and Agreements Requiring Solicitation of Quotations

The examination of expenditures revealed individual payments, contracts or agreements in excess of \$5,400 from January 1, 2015 through June 30, 2015 and \$6,000 from July 1, 2015 through December 31, 2015 "for the performance of any work or the furnishing or hiring of any materials or supplies", other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provision of (*N.J.S.A. 40A:11-6.1*).

Examination of Bills

A test check of paid bills was made and each bill, upon proper approval, was considered as a separate and individual contract unless the records disclosed it to be a part payment or estimate. The results of the examination disclosed discrepancies with respect to signatures, certification or supporting documentation.

Comment 2015-001:

During our substantive testing it was noted that vouchers were missing claimant signatures.

Recommendation:

The District should obtain claimant signature on vouchers prior to issuing payment.

Management's Response:

The District will obtain claimant signatures on vouchers

Comment 2015-002:

Good business practice states that invoices shall be obtained for all purchases as proof of purchase amount and a valid contract.

Recommendation:

The District should obtain invoices and backup documentation for expenditures prior to issuing payment.

Management's Response:

The District will obtain expenditure backup prior to issuing payment.

Comment 2015-003:

Through internal control testing of health benefits it was determined that the District was not accurately withholding employee health insurance costs from paychecks in accordance with the health benefits step guide.

Recommendation:

The District should increase health benefit withholdings in accordance with state statute.

Management's Response:

The District will correct in the current year.

Comment 2015-004:

It was noted that health benefit insurance invoices were not paid for the current year.

Recommendation:

The District should remit health benefit payments timely.

Management's Response:

The District will correct in the current year.

Comment 2015-005:

The District was unable to locate a formal LOSAP plan document describing contribution amounts and determination of LOSAP points earned. LOSAP payments were also not made timely.

Recommendation:

The District should maintain a formal LOSAP plan document and make timely LOSAP contributions for eligible volunteers.

Management's Response:

The District will correct in the current year.

Comment 2015-006:

The District contributed different amounts into the LOSAP plan for volunteers.

Recommendation:

The District should make consistent LOSAP contributions for eligible volunteers.

Management's Response:

The District will correct in the current year.

Budget

An examination of the District approved budget was conducted to ensure line items were not overspent.

Comment 2015-007:

It was noted that the district overspent their operating budget by \$186,820.

Recommendation:

The district should properly approve expenditures prior to payment including certifying that funds are available.

Management's Response:

The District will correct in the current year.

General Ledger

The general ledger was complete with the required journal entries.

Comment 2015-008:

It was noted that the District does not maintain documentation or support for annual registration fees, penalties and fines and other fire prevention bureau revenue.

Recommendation:

A log or proof of revenue received should be maintained for all fire prevention bureau revenue.

Management's Response:

The District correct in the current year.

Acknowledgment

We received the complete cooperation of all the staff of the District and we greatly appreciate the courtesies extended to the members of the audit team.

During our review, we did not note any problems or weaknesses significant enough that would affect our ability to express an opinion on the financial statements taken as a whole.

Should you have any questions, please contact us.
